Open Bicycle Shelters

Model SG15.5X37.8M-P4 Open Bicycle Rack Shelter

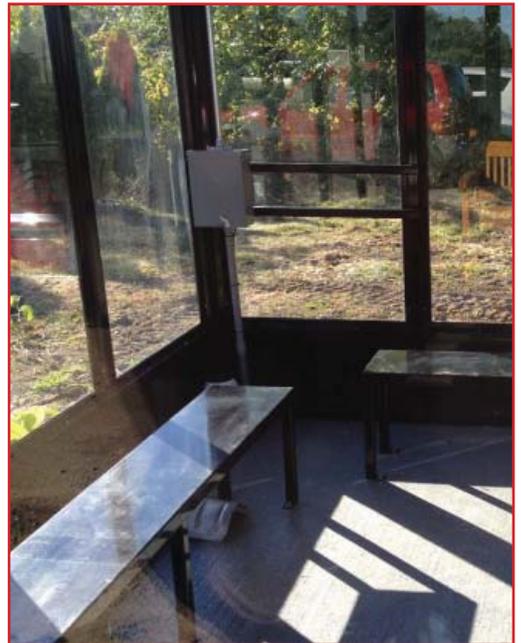

These rectangular gable structures are fitted with integrated bicycle racks and bicycle service stations. Optional direct wired or solar powered LED lighting is available.

Enclosed Bicycle Shelters

Model RH11X40M2C-P4 Enclosed Bicycle Rack Shelter

This partially enclosed bicycle storage shelter features three sides of safety glass panels, a glazed clerestory and independent bicycle racks. Optional security LED lights are available.

Model BG12.67X31S-P4 Bicycle Garage/Passenger Shelter

This rectangular gable structure is fully enclosed with safety glass panels and two doors. Integrated vertical bicycle racks line the back wall on one side, and free standing benches are on the passenger waiting side. Optional infra-red heating units and LED lighting are available.

Bicycle Accessories

2-Sided Bicycle Locker

The Bicycle locker features a lockable door on each end with a separation baffle inside that creates two compartments.

Standard Bicycle Rack

The traditional straight bicycle rack is made of tube steel and solid steel rod. Finished steel is E-coated and powder coated.

Vertical Bicycle Rack

Vertical bicycle racks take up less horizontal space, helping to fit bicycles into tighter spaces. Finished steel is E-coated and powder coated.
