

# ICON SHELTER SYSTEMS INC.

# GUTTERS & DOWNSPOUTS

Imaginative Solutions to Common Problems

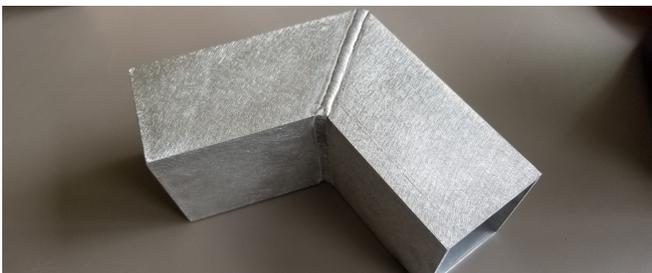

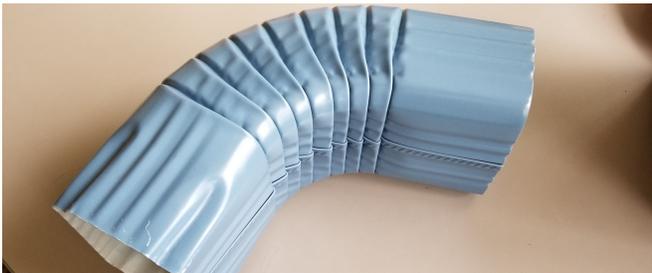

## NOTES

### Downspout Options

**Standard:** Made of traditional corrugated metal by McElroy Metals.

**Architectural:** This upgrade adds a high-end look to downspouts for highly visible projects that do not want to compromise on design when considering functionality. These elbows are designed in-house and can be painted any color.

- Due to the use of corrugated metal in our standard gutter system, color variation from the manufacturer differs due to the thickness of the material
- Color limitations only apply to downspouts and downspout elbows
- The actual gutter can be made in any of the available colors

# Standard Style Downspout Color Options
