Six Diamonds

What is Kaleido?

Kaleido (pronounced kuh LY doh) comes from the Ancient Greek *kalos* meaning beautiful & *eidos* meaning form/shape. This patent-pending system highlights symmetrical beauty through modular, reconfigurable shelter systems.

The Process

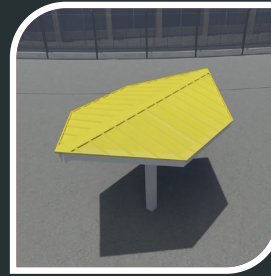

- 01 Choose a style from the Kaleido Series.
- 02 Configure the styles to match the site by using single runs and connected rows.
- 03 Select finishes and enhancements that complement your palette.
- 04 In-house Engineers provide support from concept to installation.

Styles at a glance

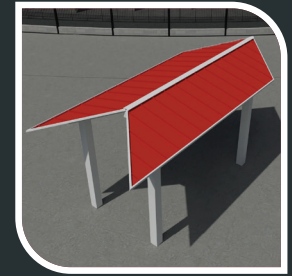

From sculptural statements to streamlined forms, the series includes options like Script and Petal, that can be mixed and matched to fit your vision. Designers are on staff to help create your ideal landscape.

The Collection

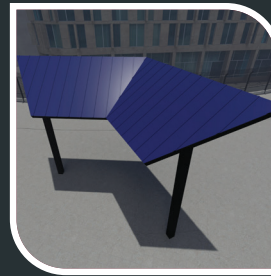

Distinct designs. Endless possibilities. Explore modular styles, each with its own visual identity:

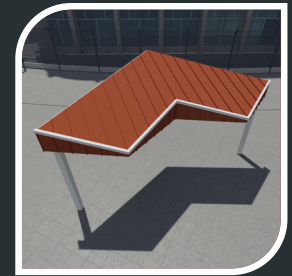

Script

Racetrack

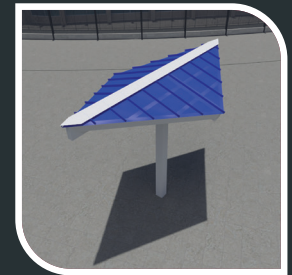

Carbon

Topaz

Puzzle

Diamond

Others include Sail, Basket Weave, Beautyberry Terrace, Honeysuckle, Misaligned Planks, Petal, Stingray, Script/Racetrack (hybrid) – options for organic, modern, or tech-inspired looks
